

## Vivek Srikrishnan

### research interests

Climate risk management  
Coupled natural-human systems  
Complex system dynamics  
Decision-making under uncertainty  
Uncertainty characterization

### appointments

Visiting Assistant Professor, Department of Biological & Environmental Engineering, Cornell University, 2020–present  
Assistant Research Professor, Earth & Environmental Systems Institute, Pennsylvania State University, 2019–present  
Postdoctoral Scholar, Earth & Environmental Systems Institute, Pennsylvania State University, 2018–2019

### education

Ph.D., Energy & Mineral Engineering, Pennsylvania State University, 2018  
M.S., Energy & Mineral Engineering, Pennsylvania State University, 2015  
B.S., Mathematics, University of Illinois at Urbana-Champaign, 2004  
B.A., Philosophy, University of Illinois at Urbana-Champaign, 2004

### publications

#### *Peer-Reviewed Journal Articles*

Errickson, F. C., Keller, K., Collins, W. D., **Srikrishnan, V.**, and Anthoff, D. 2021. “Equity is more important for the social cost of methane than climate uncertainty”. en. *Nature* **592**.(7855), 564–570. DOI: [10.1038/s41586-021-03386-6](https://doi.org/10.1038/s41586-021-03386-6).

**Srikrishnan, V.** and Keller, K. 2021. “Small increases in agent-based model complexity can result in large increases in required calibration data”. *Environmental Modelling & Software* **138**, 104978. DOI: [10.1016/j.envsoft.2021.104978](https://doi.org/10.1016/j.envsoft.2021.104978).

Zarekarizi, M., **Srikrishnan, V.**, and Keller, K. 2020. “Neglecting uncertainties biases house-elevation decisions to manage riverine flood risks”. *Nature Communications*. DOI: [10.1038/s41467-020-19188-9](https://doi.org/10.1038/s41467-020-19188-9).

Ruckert, K. L., **Srikrishnan, V.**, and Keller, K. 2019. “Characterizing the deep uncertainties surrounding coastal flood hazard projections: A case study for Norfolk, VA”. en. *Sci. Rep.* **9**.(1), 11373. DOI: [10.1038/s41598-019-47587-6](https://doi.org/10.1038/s41598-019-47587-6).

**Srikrishnan, V.**, Alley, R., and Keller, K. 2019. “Investing in science to improve climate risk management”. *Eos* **100**. DOI: [10.1029/2019eo131077](https://doi.org/10.1029/2019eo131077).

Morris, J., **Srikrishnan, V.**, Webster, M., and Reilly, J. 2018. “Hedging strategies: Electricity investment decisions under policy uncertainty”. *The Energy Journal* **39**.(1). DOI: [10.5547/01956574.39.1.jmor](https://doi.org/10.5547/01956574.39.1.jmor).

Wong, T. E., Klufas, A., **Srikrishnan, V.**, and Keller, K. 2018. “Neglecting model structural uncertainty underestimates upper tails of flood hazard”. *Environmental Research Letters* **13**.(7), 074019. DOI: [10.1088/1748-9326/aacb3d](https://doi.org/10.1088/1748-9326/aacb3d).

Wong, T. E., **Srikrishnan, V.**, Hadka, D., and Keller, K. 2017. “A multi-objective decision-making approach to the journal submission problem”. *PLoS One* **12**.(6), e0178874. DOI: [10.1371/journal.pone.0178874](https://doi.org/10.1371/journal.pone.0178874).

- Spence, C., Salazar, J., Quinn, J., **Srikrishnan, V.**, Koszuta, M., Reed, P. M., and Keller, K. 2017. “Quantifying the deep uncertainties surrounding climate impacts on water systems”. Society for Decision-Making Under Deep Uncertainty 2017 Workshop. Oxford, UK.
- Srikrishnan, V.** and Keller, K. 2016. “Identifying signposts for adaptive flood risk management strategies”. Society for Decision-Making Under Deep Uncertainty 2016 Workshop. Washington, DC, USA.
- Srikrishnan, V.**, Young, G. S., and Brownson, J. R. S. 2015. “The error from Taylor’s hypothesis for solar forecasting”. Penn State Initiative for Sustainable Electric Power Systems Workshop on Power Systems and Markets. State College, PA, USA.

#### invited talks

- “How Likely Are the Most Extreme CO<sub>2</sub> Emissions Scenarios?”, MIT Joint Program on the Science and Policy of Global Change Seminar, Massachusetts Institute of Technology. Remote. Aug. 2020.
- “How Likely Are the Most Extreme CO<sub>2</sub> Emissions Scenarios?”, Energy and Environmental Economics and Policy Seminar, Pennsylvania State University. University Park (PA), USA. Feb. 2020.
- “Climate Risk Management: A Decision-Centered Approach”, Tufts Civil and Environmental Engineering Seminar, Tufts University. Medford (MA), USA. Nov. 2019.
- “Adaptive Multi-Objective Robust Decision-Making”, Carnegie Mellon-Penn State Workshop on Multi-Objective Robust Decision-Making, Pennsylvania State University. University Park (PA), USA. Aug. 2019.
- “From Earth-System Science to Coastal Hazards and Back”, Environmental and Sustainability Seminar, Carnegie Mellon University. Pittsburgh (PA), USA. May 2019 (with Klaus Keller).
- “Agent-Based Models: The New ‘Plastic’ or the Emperor’s Clothes?”, Program on Coupled Natural-Human Systems Research Seminar, Pennsylvania State University. University Park (PA), USA. Mar. 2019 (with Klaus Keller).
- “From Earth-System Science to Coastal Hazards and Back”, Pacific Northwest National Laboratory. Richland (WA), USA. Mar. 2019 (with Klaus Keller).
- “From Earth-System Science to Coastal Hazards and Back”, Joint Global Change Research Institute. College Park (MD), USA. Feb. 2019 (with Klaus Keller).
- “Can We Avoid a (Rational) Route to Collapse?”, Workshop on Managing Natural Resource Risk in the Modern and Prehistoric World, Santa Fe Institute. Santa Fe (NM), USA. Oct. 2018 (with Klaus Keller).
- “Hedging Strategies for Electricity Investment Decisions Under Policy Uncertainty”, Energy and Mineral Engineering Graduate Seminar, Pennsylvania State University. University Park (PA), USA. Mar. 2016.

<b>workshops organized</b>	Carnegie Mellon-Penn State Workshop on Multi-Objective Robust Decision-Making. University Park (PA), USA. Aug. 2019.
<b>grants and contracts</b>	Co-PI (PI: Klaus Keller at Penn State on subcontract from Battelle-Pacific Northwest National Laboratory). Department of Energy, Biological and Environmental Research. "Integrated Coastal Modeling (ICoM)". \$1,200,000. 2019–2022. Co-PI (PI: Klaus Keller at Penn State on subcontract from Battelle-Pacific Northwest National Laboratory). Department of Energy, Biological and Environmental Research. "Integrated Multi-Scale Multi-Sector Modeling (IM3)". \$25,000. 2019–2020.
<b>networks and projects</b>	Visualizing Forest Futures (ViFF). Participant. PI: Erica Smithwick. National Science Foundation. 2019–2021. Project on Coupled Human and Earth Systems (PCHES). Participant. PI: Karen Fisher-Vanden and John Weyant. Department of Energy, Biological and Environmental Research. 2018–2021. Network for Sustainable Climate Risk Management (SCRiM). Participant. PI: Klaus Keller. National Science Foundation. 2016–2019.
<b>teaching</b>	<i>Pennsylvania State University</i> Thermodynamics in Energy and Mineral Engineering. Teaching Assistant. Fall and Spring 2014, 2015, 2016. Calculus with Analytic Geometry I. Primary Instructor. Spring 2011. Integral Vector Calculus. Primary Instructor. Spring 2010. Calculus with Analytic Geometry II. Primary Instructor. Fall 2009. Ordinary Differential Equations. Primary Instructor. Summer 2008, 2010. Symplectic Geometry. Teaching Assistant. Fall 2008. Ordinary and Partial Differential Equations. Primary Instructor. Fall and Spring 2007, 2008, 2009. Ordinary Differential Equations. Primary Instructor. Fall 2006. Trigonometry and Analytic Geometry. Primary Instructor. Fall 2005, 2010. Calculus of Several Variables. Primary Instructor. Fall and Spring 2004, 2006.
<b>advising</b>	<i>Pennsylvania State University</i> Carl Frederick Aquino, M.S. Geosciences. Committee member. 2020–present. Xinyuan Huang, Ph.D. Civil and Environmental Engineering. Committee member. 2019–present. Carl Frederick Aquino, B.S. Geosciences. Co-advisor. 2019–2020.
<b>awards</b>	Graduate Research Fellowship Honorable Mention, National Science Foundation. 2015 Harold F. Martin Graduate Assistant Outstanding Teaching Award, Pennsylvania State University Graduate School. 2011 Charles H. Hoover Memorial Award, Pennsylvania State University Department of Mathematics. 2010 Departmental Teaching Award, Pennsylvania State University Department of Mathematics. 2008 ZZRQ Award, Pennsylvania State University Department of Mathematics. 2006

- outreach** Taught session on multi-objective robust decision-making, SCRiM Summer School. 2018, 2019.
- service** Associate Deputy Editor, *Climatic Change*. 2021–present.  
 Co-Chair, MultiSector Dynamics Working Group on Uncertainty Quantification and Scenario Development. 2019–present.  
 Member, MultiSector Dynamics Community of Practice Scientific Steering Group. 2019–present.  
 Co-Convener and Co-Chair, AGU Session on MultiSector Dynamics: Science and Modeling for Societal Transformations II. 2020.  
 Co-Guest Editor, *Water*. Special Issue on 'Climate Model Projections: Sea-Level Rise and Impacts on Coastal Defense Decision-Making'. Forthcoming.
- professional experience** Research Assistant, Brownson Solar Research Group, Pennsylvania State University). 2011–2014  
 Technical Editor, *Journal of Modern Dynamics*). 2008–2010
